Qualifications

University of Amsterdam: PhD in Biology (2010–2014)

Utrecht University: BSc in Molecular Biology (2006–2010)

Vetted Tutor 

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over 14 years of teaching experience, I've had the privilege of working with students from all around the world, guiding them through their IB, A-Level, and IGCSE Biology exams. My lessons are designed to cover complex topics, ensuring students are well-prepared for their assessments. Throughout my career, I've helped students develop a solid understanding of biology, both in theory and practical applications.

I've also supported students preparing for university-level courses, providing them with the necessary tools to succeed in subjects like genetics, physiology, and molecular biology. My background in research has allowed me to bring real-world applications into the classroom, ensuring that my students not only excel in exams but are also equipped with critical thinking skills.

In addition to school-level tutoring, I've worked on helping students with advanced biology projects, assignments, and exam preparation. Many of my students have gone on to study biology and related fields at top universities, achieving remarkable academic success with the foundations we built together.
