## Qualifications

**University of British Columbia:** MSc in Biology (2004-2006)

**McGill University:** BSc in Botany (2000-2004)

**Vetted Tutor** 

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past 16 years, I've worked with students from diverse educational backgrounds, guiding them through challenging subjects in IB and A-Level Biology. My experience includes helping students understand complex biological concepts and preparing them for important exams, ensuring they excel.

I've also supported students preparing for university-level biology courses, providing them with a solid foundation in topics such as human anatomy, physiology, and molecular biology. Many of my students have gone on to succeed in prestigious universities, excelling in their chosen fields.
