🎓 Experienced Tutor | National University of Singapore | BSc in Physics

I have over a decade of experience teaching IB, IGCSE, and A-Level Physics, supported by my BSc in Physics from the National University of Singapore. My approach focuses on guiding students through international curricula to achieve top exam results and a solid understanding of physics.

Teaches: IB Physics A-Level Physics IGCSE Physics GCSE Physics AP Physics

Curriculum: IB A-Level GCSE IGCSE AP

Qualifications

National University of Singapore: BSc in Physics
(2010–2014)

Nanyang Technological University: MSc in Applied
Physics (2015–2017)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For the past decade, I have guided students across multiple international curricula, including IB, A-Level, and IGCSE Physics. I've had the opportunity to work with students from Singapore, the UK, the US, and several other countries, tailoring my lessons to suit their learning needs and exam goals. Whether it's tackling challenging IB concepts or preparing for A-Level exams, I strive to ensure my students grasp key topics while building their confidence in Physics.

I also specialise in preparing students for AP Physics, helping them master advanced content for high-scoring results. I incorporate various exam techniques and past paper analysis, ensuring students are well-prepared for the challenges they'll face in their final assessments.

My approach to teaching physics is hands-on, and I focus on helping students understand the subject through real-world applications. I believe this method not only makes learning more engaging but also equips students with the analytical skills needed for their future studies.
